

ISOBEL

Thermal bottles and carafes

Catalogue
2024-2025

ISOBEL is a company dedicated to the development, production and marketing of vacuum and insulated containers.

It offers a wide range of vacuum flasks, jugs, airpots, food containers, coolers and ice pails.

ISOBEL provides more than 250.000 items a year to its professional clients : retail distribution, wholesalers, gift shops, food service and hospitality businesses.

Its ideal location in Liège (Belgium), at the heart of Europe and at the crossroads between France, Germany and The Netherlands, serviced by a dense network of highways and with the port of Antwerp less than 100 km away allows for fast and efficient distribution of its products.

Since its creation in 1956, **ISOBEL** strives to promote quality products while offering after sales support - all spare parts being readily available from us.

In 2001, **ISOBEL** was incorporated with a capital of 65.000 EUR.

Exporting has always been a focus for our company. Exports currently make up for more than 50% of our business. **ISOBEL** is well tuned to the challenges of selling outside its borders.
